---

## Education

---

**DePaul University:** Chicago, Illinois

*Fall 2015 – Summer 2017*

*Interactive and Social Media – Concentration in Development*

---

## Work Experience

---

**GreatMoods.com** | Remote

*Front-end Developer Intern*

*May 2017- Present*

- Setup BitBucket account where I'm set as admin and manage the source code repo
  - In charge of reviewing pull requests to ensure branches can be merged to master without conflict
  - Currently the lead, and only, front-end developer working on site redevelopment using HTML, CSS, JS, jQuery, PHP, and Bootstrap
  - In charge of redeveloping existing site pages and content using
  - In charge of redeveloping all navigations throughout the site – unfortunately I'm forced to use the same categories and dropdowns as their current site.
  - Main focus for this redevelopment is to make the site fully responsive and user friendly.
- 

## Activities and Community Service

---

**Upsilon Pi Epsilon Society:** DePaul University

*April 2017 - Present*

*Member*

- Admitted for being in the top 35% for the college of Computing and Digital Media.
  - Collaborated with other members to help teach front-end languages - CSS, HTML, JavaScript, jQuery - in exchange for learning more about Ruby and even some C++.
  - Attended events and workshops to learn and learn even more about newer web frameworks and languages.
- 

## Technical Skills & General Skills

---
