Work Experience

GreatMoods.com | Remote
Lead Front-end Developer Intern   *May 2017 – October 2017*

- Developed with HTML5, CSS3, FlexBox, JS, jQuery, Bootstrap 3.3, and PHP.
- Redeveloped around 70 responsive pages and most essential elements on the site by myself.
- Team lead in charge of assigning tasks for my one other team member on the front-end.
- Actively communicated with my boss (site owner) to determine high/low priority tasks for the front-end – assigned tasks accordingly.
- Collaborated with my boss (site-owner) to determine his needs/wants for the overall design.
- Admin of hosted source code repository – reviewed all pull requests to ensure the code was up to par and could merge into master without conflict.
- Trained new developers how to properly use Git and our code repository to improve upon our collaboration as a team.

Organizations Involvement

Upsilon Pi Epsilon Society: DePaul University   *April 2017 - Present*
Member

- Admitted for being in the top 35% for the college of Computing and Digital Media.
- Frequently collaborated with other members – taught Ruby-on-Rails basics in exchange for lessons about OOP concepts I was unfamiliar with, and could apply to my Ruby skillset.
- Attended events and workshops to learn about new/popular web frameworks and languages.

Technical Skills & General Knowledge

- Strong proficiency developing with semantic HTML5, CSS3, CSS Flexbox, Bootstrap, JavaScript, jQuery, Ruby-on-Rails, Ruby.
- Knowledgeable developing with AJAX, SQL, and PHP.
- Experienced and knowledgeable in developing fully responsive websites and web-apps.
- Concrete understanding of MVC patterns - ability to develop both the front and back end to build dynamic web-apps.
- Familiarity with Angular.js, React.js, Node,js, and gulp.
- Proficient with WordPress and Drupal Content Management Systems.
- Strong understanding of user-centered web design principles and usability heuristics.
- Proficient in designing with Adobe Photoshop, Illustrator, and InDesign.
- Committed to learning new frameworks and languages whenever the opportunity arises!
